#### WEDNESDAY, NOV. 25, 1857.

A WOLF IN SHEEP'S CLOTHING .- The Nashville Gazette mentions an elopement of a man named Wentworth with a married lady of that city whose name is Broadbridge. Mrs. Broadbridge is an English woman, and has resided in this country about four years. She has been married eight years, and is the mother of four children, only one of which, a little girl about five years old, is living, and is now with its father. The Gazette says" Wentworth had been residing in Nashville but a short time, and represented himself as a regular licensed preacher, but was engaged as proof reader to one of the daily printing offices. A short time ago he declined a situation in one of the other offices because a young man engaged in the establishment was addicted to the ugly habit of profane swearing." It is evident that he is a consummate rascal who has "stolen the livery of Heaven to serve the devil in." Such rascality should not be allowed to pass unscathed.

The Lake Ontario and St. Lawrence Steam boat Company, whose stock a few years ago was so good that it could not be obtained, has gone into liquidation. The company owes seventy-five thoueand dollars, with nothing to meet it but boats and farniture. In order to save the property from the hands of the sheriff, an attempt will be made to organize a new company, and assess the stockholders pro rata to pay the \$75,000. A period of thirty days is allowed in order to carry the plan into effect. The capital stock of the company is \$500,000, and they have nine steamers, some of which cost over one hundred thousand dollars each.

TRIAL OF COWEE.-The trial of George R. Cowee for forgery came up in the municipal court at Boston | damage of the sngar cane in Louisiana, received on Wednesday last, and resulted the next day in day before yesterday, was no doubt much exaggerhis conviction. He conducted his own case. The ated. A private dispatch received yesterday says sentence was postponed. Cowee, it will be recollected, confessed when arrested on the charge upon extent at first reported. which he was convicted, that he had forged the names of the presidents and cashiers of several banks to genuine notes to a large amount which had been stolen from the New England Bank Note Company. The parties implicated by him were arrested and held for the offence

FORKING OVER .- We learn from the Charleston Courier that all the suspended banks of that city have promptly met the demand of the Comptroller neral of the State for the penalty imposed by law in case of suspension—that penalty being at the rate of five per centum per annum on the amount of circulation, at the time of suspension, payable monthly until the resumption of specie payments. The penalties thus imposed sum up, in the aggregate, to the snug little sum of \$10,978 20.

LARGE MOVEMENT OF GRAIN .- The aggregate quantity of grain which will be shipped from New York during the month of November is about 1,500, 000 bushels, of which, say two-thirds is in bags and the remainder in bulk. Last year, in November, while the extraordinary shipments of grain were taking place, the number of grain vessels which left New York was but forty-one, whereas it is calculated that not less than suxty-one will sail before the present month expires.

STEALING A COAT.-About 4 o'clock last evening a man, who from appearance was a deckhand on a steamboat, was staggering along Second street as building has been erected for it in Baltimore, of if under the influence of liquor, and, when passing Mr. Blanchard's door, coolly took a coat which was hanging ont, rolled it up, and walked off down Main street. The clerks got an intimation of it, gave the fellow chase and caught him, and handed him over to the police.'

THE MURDER OF VINCENT .- The investigations in regard to the murder of Francis Vincent, in William street, New York, are still going on. The son, Francis Vincent, Jr., whose conduct after the murder excited suspicion and led to his arrest, has proved an alibi and been discharged. He was not in the city the night of the murder, but out in Bush wick, at the house of his brother-in-law, Joseph Walter:

RIVER AND STEAMBOAT MATTERS.

The river was falling slowly yesterday. Last evening there were 7 feet 8 inches water in the canal and 5 fect 2 inches in the pass on the falls.

Matters about the river were very quiet. There are no boats advertised to leave for New Orleans today, the Virginia having postponed her departnre till to-morrow evening. The Republic also leaves at the same time. They are both splendid crafts, and well officered.

THE RELIEF AND EMPLOYMENT ASSOCIATION.-We are gratified to learn that this Association is preparing to renew its charitable efforts upon a scale that it is hoped will be commensurate to all the wants of the city. At a meeting of the Directors of the Association yesterday, Chase Duffield, Esq , was chosen President, and the following gentlemen were appointed committees in their respective wards to procure contributions for the purpose of promoting the objects of the Association:

First Ward-Dr. J. A. Krack and Mr. Widecam-

er.
Second Ward—J. Cooper and D. Lavielle.
Third Ward—Lewis Jefferson and S. B. Howard.
Fourth Ward—Arthur Peter and J. P. Curtis.
Fifth Ward—B. J. Adams and R. K. White.
Sixth Ward—J. McDowell and R. Montgomery.
Seventh Ward—G. W. Morris and Jas. Trabuc.
Eighth Ward—B. F. Avery and T. D. Howard.

These committees are earnestly requested to act promptly and to deposit their collections with Chas. E. Tilden, Esq., Treasurer of the Association, at the Bank of Louisville.

Another meeting of the Association will be held on Monday next, at which it will be determined how and to what extent its purposes may best be developed.

We invoke for this Association the hearty support and cooperation of our citizens. Experience has proved that the mode of relief it is designed to afford is the most useful that can be devised, and, unlike other charities, tends to diminish pauperism. We shall refer to it again.

DISASTROUS EXPLOSION .- On Thursday or Friday last a steam boiler attached to a saw mill in Pulaski county, Illinois, blew up and killed John Fincher, the owner, and two others, and severely injuring Jacob Fincher, a brother of the proprietor. The latter, it is thought, cannot possibly survive. The body of John Fincher was on Friday night taken to Lebanon, St. Clair county, where his family reside.

RESIGNATION .- The Treasurer (S. J. Walker) of the Covington and Lexington Railroad has resigned his office. The reason given for it is his disagreement with the directors of the railroad with regard to the late suspension.

The Chicago Tribune gives an account of the loss of the schooner Flying Cloud. Capt. Sherwood and six of the crew were frozen to death. Various other disasters are mentioned.

ADAMS EXPRESS COMPANY.—This great public conveyance, in order to keep pace with the times and account date their host of customers, have found it necessary to have erected a new depot on the line of the Baltimore and Ohio railroad, between Montgomery and Cross streets, which, as intended, will greatly facilitate the reception and ran-portation of freight. The building, which is entirely devoid of ostentatious show, fronts upon Howard street, and is in length 157 feet by 67 feet in width. In height it is but one story, with skylight opening. The roof is planked and strewn with gravel. The roof timbers are exposed, and the walls are braced across by strong oak girden. These walls are quite massive, being constructed of the best pressed brick, and are two feet thick. The interior center is occupied by the platform and the office, on each side of which, through the gateways, two tracks are iaid, which connect with the great line of the Baltimore and Ohlo railroad. On Howard street there are also two gateways for the reception of freight, with ample space for the operations of draymen and those engaged in freighting the care. The depot is aiready occupied by the company, and the vicinity begins to wear a business aspect.

THE MONEY MARKET .- We have no change whatever to notice in the money market. We were shown yesterday numerons orders for manufactured to bacco, but as manufacturers cannot get any facilities the orders cannot be filled. New York exchange continues at 2 prem., Philadelphia par, and Baltimore a discount ; New Orleans 1 premium.

Private dispatches from New Orleans say that the only unfavorable effect on that market by the Atlantic's news was a 1/2 cent decline in cotton.

The New York Journal of Commerce, of Saturday evening, says:

The New York Journal of Commerce, of Saturday evening, says:

The banks are still cheerful lenders where acceptible paper is offered, but as this description of security is very scarce they are not likely to expand their loans materially for some lime to come. Those who expect that confidence and credit can be reestablished, except upon entirely new foundations, will that themselves mistaken, but there need be no farther severe pressure on the progress toward that consummation. Very little new and important business will be undertaken by those who alone are able to initiate a progressive movement, until they "see where they stand." In other words, there must be a general liquidation of present indebtedness before there can be a prosperous revival of trade. The duty of every one is to contribute as far as possible to this result, and as there are many in the city who are tied to inaction until the country sends in its dues, a strong effort should be made to move the crops, and facilitate collections. To this end something more is needed that simply the requisite currency. The farmers should be induced to sell their produce, not by paying them a price which will leave a loss to the forwarder: such a movement would benefit no one as capital will not be invested in the crop except with the loope of profit. The best method of encouraging such sales fat o circulate accurate information in regard to the extent of the crops, the quantities on haud unsold, and the almost certain deline in price upon the opening of another season.

We heard of no transactions here, and continuc to quote nominally \$5 cash. A sale of 200 head at Bloomfield, Nelson county, at 3 75 gross, 4 mos. In the product, a sale of 50 bbls new mess pork at \$16 and 35 bbls at \$15. These prices do not hold good, as they are above the views of buyers. Also a sale of 600 green hams at 7 cents on time, and 25 kegs new prime lard for shipment at 111/2

At Carlisle, Ind , on the 18th, hogs were bringing last week \$5, 4 months. At Newberry, Ind., holders were offering \$5.

The Chicago Tribune of Monday says:

There is now a good demand by Chicago packers for live logs at \$4a4 30 per 100 lbs gross. The weather is favorable for packing purposes, and receipts are very fair, being 4,475 head in the 24 hours ending at noon Saturday by railroad. Most of the receipts are by the Illinois Central and by the Alton road.

The Cass County (Ill.) Times contains the following call which may interest operators:

ing call which may interest operators:

There is an unusually large number of fine, well-fatted logs in this county. Ten or twelve thousand have been contracted at \$6 per hundred, but it is feared there is or will be an indisposition or inability to live up to some of the contracts by paying cash on delivery. This will not suit some of our farmers, who are afraid to sell on tick in these ticklish times, when it is so common for business men to suspend payment. Hence he who will pay all cash in hand can buy hogs on much betters terms than he who aims to buy on credit. Cash down will be the rule and credit sales the exception, provided there are any cash buyers in market.

From the above state of facts we conclude that Cass county is now an excellent field for the opera-

From the above state of facts we conclude that Cass county is now an excellent field for the operations of two or three pork dealers who call pay cash on delivery. It is therefore much to be hoped that several such dealers will be on hand in Beardstown in a short time. For our own part, if we had hogs to sell this season, we would pack them or seud them by railroad to Chicago or St. Louis before we would sell them on credit at any price.

The Clarksville (Tenn.) Chronicle, of Friday

The pork market is dull. Buyers are offering 4c net, while sellers, who are not compelled to have money to meet their immediate demands, are holding up for higher prices. The indications at present are that a large quantity of bacon will be made.

In the midst of the panic the Treasury issued an order suspending the charter of the Bank of Eagland and anthorising the issue of small notes to any amount. The effect of this order was instantaneous. The panic immediately ceased and the news was received with futious acclamations in all the commercial cities throughout the Kingdom.

The English money market was steadier on the 18th. Bank stock was quoted at 209½@212. Exchequer bills improved. All kinds of produce immediately advanced considerably.

There had been a great money pauic in Scotland and a heavy run had prevailed on all the banks.

The feeling among the business circles of Bristol, Manchester, Edinburg, and other places became more cheerful on learning that the Government had authorized the Bank to extend its issues.

The British Purliament will meet immediately. The Bank of France had raised its discount rates to 10 per centum on bills of 99 days.

All the city people found in Delhi were bayonetted by the British Ircops. Many Europeans were found lighting in the ranks of the rebels.

Commercial Intelingence.—Liverpool, Nov. 13th.—The sales of cotton for the week amount to only 11,000 bales, in consequence of the depression and panic in monetary affairs. On Wednesday and Thursday the decline in cotton ranged from 1d to 1½d, and there was a general panic in the market. On Friday the measures of relief adopted created an improved feeling, and prices advanced 34, and with sales of 6,000 bales, the market closing with a tendency to still further advance. The quotations are irregular and nominal. The following are the prices given by the circulars published on the 13th: Fair Orleans 73d, d, middling Orleans 73g, fair Uplands 73g, middling Uplands 7, middling Mobile 73g. The stock of cotton in port is 325,000 bales, including 162,000 bales of American.

New York, Nov. 24.

A large meeting was held at Tammany Hall last evening to ratify the nomination of Fernando Wood. Hon. John Kelly, John Cochran, and Col. Doherty were the principal speakers. The greatest harmony and enthusiasm prevailed.

Another meeting was held in the Park at the same time, the hall being inadequate to accommodate the immense mass. On adjournment, the crowd proceeded to the St. Nicholas, where Mr. Wood addressed them.

Dennistonn, Wood, & Co. made an assignment yesterday to John Home for the benefit of all their creditors. The extent of their liabilities is not known, but great confidence is expressed in their ability to pay all their creditors in full. The suspension of Dutille & Co. and Hoge & Williams were precipitated by that of Dennistoun, Wood, & Co.

The unemployed laborers, led on by political committees, had another meeting in Tompkins's Square this morning. Some speeches were made, and most of the crowd formed a procession and marched to the Paik. They were addressed there by Richard Moore, who advised them to go to the Central Park Commissioner's office and demand work. He said they must not be refused or put off, and must have bread before to-morrow morning.

To-morrow being Thanksgiving day, the Bulletin will not be published.

THANKSGIVING .- In accordance with the recommendation of Governor Morehead, we intend to devote to-morrow to thanksgiving and its customary adjuncts-that is, to the extent that an editor's funds will allow him to partake of the latter. We are gratified to believe that all our readers, while thanking Providence for past blessings, will be able to avail themselves of a bountiful repast. The prices of provisions are extremely reasonable, and if money is difficult to be obtained it is certain that a very small amount of coin will buy a disproportionately large quantity of eatables. The poor will be provided for by the generosity of our citizens, and our tables will mingle their incense from smoking turkies and their accompaniments with the gustatory appreciation and thankfulness of epicures. Thanksgiving day will be celebrated in twent -one States of this Union to-merrow, and we hope the large majority of the people of the United States, who will participate in that celebration, will not fail to render due thanks to that almighty Dispenser from whom these and all our blessings flow.

The following is the Governor's preclamation: The following is the Governor's preclamation:

Phoclamation.—The season has again arrived, when in
obedience to established custom, it is deemed proper to set
apart a day for the people to immble themselves before the
throne of our Heavenly Father, and render thanks for the
countless blessings bestowed upon them. We have been
long in the enjoyment of unparalleled prosperty, and although the present be a period of severe commercial distress, under Almighty, guidance and devery apparent talamily, there is a moral power which makes it the minister
of his will, and which is able "to overcome every evil with
good." During the past season peace and happiness have
pervaded the land. The Providence of Heaven has given
us repose "in seeme habitations and amid quiet resing
places." We have been more than ordinarily blessed with
good health. The earth has yielded bountsously, and its
fruite have been garnered by the unfettered hand of Industry. Our country is teeming with abundance, and the great
bedy of our people are free from suffering.

try. Our country is teeming with abundance, and the great body of our people are free from suffering.

For these and all other blessings we are indebted to the goodness sid mercy of God, and it becomes us to bow before the throne of mercy with hearts filled with thankfulness and graitede.

Wherefore, I, C. S. MOREHIEAD, do hereby set apart and appoint Thursday, the 28th day of November, 1857, to be observed as a day of public thanksgiving and grayer, and do hereby recommend and request the people of Kentucky to observe the same as such.

In testimony whereof, I have set my hand and caused the seal of the Commonwealth.

By the Governor:

C. S. MOREHEAD.

BURNING OF THE RAINBOW.

# FULL PARTICULARS.

# SEVENTY-FIVE LIVES LOST.

# BOAT AND CARGO TOTAL LOSS.

LOSS \$175,000 TO \$200,000.

We are indebted to Mr. Wm. B. Huston, the clerk of the ill-fated steamer Rainbow, for the following details of the destruction of that boat by

The Rainbow, Capt. Holcroft commanding, on her way from New Orleans to Louisville, had on board from two hundred and fifty to three hundred souls, passengers and crew, all told, and about four hundred tons of freight, principally sugar, coffee, and

Oa the morning of the 21st inst., at about half-past two c'clock, while under way, some ten miles above Napoleon, and near the head of Island 74, the boat was discovered to be on fire. The officer of the deck, Mr. C. Whitlow, immediately ordered her to be run ashore. The order was promptly executed by Mr. Lamb, the pilot at the wheel, but so rapid was the progress of the flames that by the time the shore was reached they enveloped the entire boat, which presented a mass of fire from stem to stern. Those of the passengers and crew who were on the forward part of the boat escaped without difficulty. Those at the stern were cut off from any means of escape except by jumping into the water. Although it was but a few vards to the shore, but few of the latter escaped, except those who had the presence of mind to take life-preservers or something to sustain them in the water. No doubt many were burnt in their rooms. Some were overcome with fright and knew not which way to go, and would not jump into the water. The wheel-house next the shore was filled with men, women, and children. The beams burnt off, and the weight of the wheel careened it overboard, carrying with it a great many persons, but few of whom were saved.

All the books and papers being destroyed, it is utterly impossible to ascertain accurately the names of the lost or saved; but, after carefully comparing the statements of those that were saved, we cannot make the loss less than 60 to 75 human beings; all ushered into eternity without a moment's warning. Truly "in the midst of life we are in death." The officers without exception were saved.

CREW LOST .- Ed. Prather, first, and Wm. Rochester, second steward (colored), and Frank Starkermeyer and assistant, pastry cooks (Germans); third and fourth cooks (one white and one black), with fifteen of the crew, firemen, and deck-hands. Assistance.-The Sovereign, bound down, fortunately was near at hand, and succeeded in picking up several of the passengers floating in the water, upon pieces of wood, &c. She took on board those of the saved who wished to return South. The Minnehaha soon came along, bound up, and several persons went off on her. A few hours afterwards the James E. Woodruff came up and took on board the crew and the remainder of the passengers, with the exception of a few who stayed to look for the

remains of their lost friends. ORIGIN OF THE FIRE.—The officers of the boat agree that the fire originated in the cook house, which being closed, they think that the fire was under full headway before bursting out, and then it was so far started, and the wind blowing very fresh, that nothing could be done to arrest its progress.

CARGO.-The cargo consisted of sugar, coffee, and molasses, 350 to 400 tons, all of which is a total

· Passengers.—The passengers, with one or two exceptions, had retired to their rooms. Among them were several Californians, with their treasures of gold and their families, coming back to their homes, but, alas I they met with the cold embrace of Death in its most horrid form, instead of that of kindred and friends from whom they had so long been senarated.

TREASURE AND JEWELRY LOST .- All the passengers lost everything, money, clothes, and all they had except what was on their persons.

A large amount of money in gold and \$20,000 in jawelry were undoubtedly lost. The heat's safe with contents was soon recovered.

and those of the passengers who had deposited their m ney in the office, were saved from loss in that

INCIDENTS .- Mr. Wheatly, from California, with his wife and child, jnmped from the steamer and struck boldly out for the shore. The wife scon sunk to rise no more; the child was drowned clinging to the father's neck. He could not reach the shore with his child and was compelled to let it go. M: W. was assisted by those on shore, and saved. He had \$3,500 in gold in the safe, which was recovered. He remained at the wreck to recover if possible the remains of his wife and child.

Mr. Whitlow, the mate, picked up five persons hinging to a small piece of timber. All were saved, though in two of them life was apparently extinct. Mr. Maddock, a traveling agent of a Philadelphia

house, lost \$20,000 worth of jewelry, saving noth- francs. ing but his pantaloons, without either coat or hat. Every one of those who escaped was but half Some had coats and no pants, few had hats or boots, some had no covering but the comfort snatched from their berths, as they left, but their

wants were soon supplied by the crews of other boats

Capt. Rogers, of the James E. Woodruff, with a noble generosity, that is an honor to the steamboatmen of the West, took all who were saved and desired to come up, some one hundred in all, to Memphis free of charge, and the crew of the Rainbow to Cairo on the same generous terms, showing that the Western boatmen are humane, although looked upon by the worll as outside barbarians,

Mr. Henry, of the Taylor House, Cairo, contribrelief of those who came to Cairo, and Mr. McCormick, of the Illinois Central Railroad, and the officers of the Ohio and Mississippi and of the New Albany and Salem railroads, brought them all free of charge to this point.

Advertising.—There has never been a period within our remembrance when the benefits of advertising and the folly of retrenching in this department of business expenses in dull times were quite so palpable as at present. The most careless observer cannot fail to note the difference between the non-advertising and the advertising atores, as he passes along Broadway. In the former there is solitude and silence—in the latter, life, activity, and the hum of bargain-seeking crowds. If there be a merchant who doubts the utility of challenging public attention through the newspaper press, let him air his scepticism in the establishments which are in constant communication with the world of consumers through this medium.

"I don't believe in advertising," is the ipse dialt of a mind afflicted with something approaching to judicial blindness. Sulky merchants, who mistake obstinacy for digpity, and refuse to descend to the courtesy of telling the public what goods you have to sell, and what prices you will take for them, we ask, "What are you doing?" We say, you are sitting in your salesrooms, wrapped up in the solitude of your own originality, as free from profitable intrusion as if each of you were a mercantile Marius crouching amid the ruins of a commercial Carthage. Deny the fact if you can! It is notorions as the sun. Long-headed firms who keep en rapport with the public through the business columns of the press, what are you doing? It is unnecessary to "pause for a reply." Work-weary salesmen and over-tarked cashiers will testify that the "pressure" of a cash retail business, created and stimulated by wholesale advertising, beats all the other pressures of the day.

ITEMS.

Melancholy and Singular .- The strange casualty of a person being blown from a railroad train in motion by the force of the wind is not a very rare one in the annals of railronding upon the prairies. During the gale of Wednesday night a brakeman named Cushmyer, in the employ of the Chicago and Rock Island Railroad, was blown from his stand on the platform of a freight car, while running at full speed, the wheels passing over him, and killing him instantly.

A Poet in Luck .- M. Lamartine, whose fortune was greatly impaired by a series of bad years and his indulgence to poor tenants, has this year a magnificent crop of wine upon his Macen estate. It is said that he has sold 3,000 casks, at 80 francs each, and has subsequently realized a sum of 210,000

Hanging .- The sentence of death in the case of Greeubury O. Mullenix, for the murder of his wife, was to have been carried into effect at Greencastle, Ind., on Friday. He has persisted in asserting that if he had not killed his wife she would have poisoned him, and that God will not punish a man for mordering a woman in self-defense.

Newspaper Coverlids .- A writer to the New York Evering Post recommends the use of newspaper as comforters or coverlids for beds, in cold weather. He uses a found or two of old papers with the edges pasted for convenience, or spread between light covers to retain them in their place.

Music in New York .- The opera in New York, at the Academy of Music, is on its last legs. It has been kept up at the loss of \$500 or \$600 a night. The last alternative is to cut down the expenses and the salaries of the artists, a resolution more easily determined upon than executed. Some of the artists comply and some kick against the reduction. But unless they all agree the Academy will be uted in every way in his power to the comfort and closed and an addition be made to the "hunger meetings.

England Recruiting in France.—The Independence Belge asserts that recruiting for the English service is going on secretly in France, and that one hundred francs bounty is given to each recruit. To make the matter appear more certain, the correspondent who furnishes this news says that he saw one thousand francs paid down, on one occasion, to ten recruits. The men thus raised are, it is said, to be sent to India, by way of Alexandria and Suez, as quietly as possible, and, when arrived at their destination, are to be commanded by French officers.

[From the Hartford Daily Times.] ARTIFICIAL FISH-BREEDING CARRIED INTO SUCCESSFUL OPERATION IN CONNECTICUT. — We are pleased to be able, at length, to announce the first practical attempt in the United States to propagate fish by artificial means. Private experiments in a small way have doubtless been made in many interest but we believe no systematic and extensive

fish by artificial means. Private experiments in a small way have doubtless been made in many instances; but we believe no systematic and extensive plan to this end has hitherto been carried into operation on this side of the Atlantic. The spot selected for the trial is Saltonstall lake, a beautiful sheet of water lying chiefly in the town of East Haven, and only a few miles from the sound. This lake is some four miles long and nearly a mile wide. It is fed by a living stream from a piece of woods at its head on the north, and along the path or channel of this stream, for a distance into the lake of about two miles from its embouchure, a portion of the impregnated fish's eggs which are used in the experiment have been placed, resting in a bed of gravel.

Carl Muller, formerly a resident of Saxony, but now of New York, has, in company with two or three others, purchased the right of fishing in this lake; and the Legislature, at its last assion, passed an act which effectually protects them in these rights. In pursuance of the design, Mr. Muller has been to Lake Ontario and Lake Michigan, from which region he has just returned with some five millions of the eggs of the lake trout. The business of depositing, or planting these eggs in Saltonstall lake was done yesterday, Nov. 17th, 1857, under the supervision of Mr. Muller. These eggs, when collected, filled the space of half a barrel. Before putting them in the water, in case it is in the bed of a stream, a sort of bed is prepared for their reception by placing upon the bottom, stones and gravel, in such a manner as to save the eggs from being washed away, and perhaps also in a measure to protect them from the rapacity of pickerel and other fish. such a manner as to save the eggs from being washed away, and perhaps also in a measure to protect them from the rapacity of pickerel and other fish. The eggs were placed in different positions, chiefly near the Western shore, which is rocky and abrupt, and in water of two to four feet deep. They are expected to hatch next March.

The fish multiply with great rapidity, and excellent fishing is anticipated in the course of two or

lent fishing is anticipated in the course of the petter years time. Mr. Muller, who has had experience in these matters at home in Germany, is very rience in the project. He renee in these matters at home in Germany, is very confident of the entire success of the project. He regards Saltonstall Lake as the best lake for the purpose that he has yet met with. In addition to the eggs of the lake trout, which have thus been bedded in this beautiful sheet of water, another million of eggs, from the well known white fish of Lake Michigany warm also put down.

lion of eggs, from the well known white use of Lake Michigan, were also put down.

These fish-eggs, particularly those of the lake trout, are worth examining. They are about as large as "double B" shot, and are obtained already in an impregnated state. The difference between those which are impegnated with the milt of the male tish, and those which are not, is clearly seen by the eye, the former are quite translucent, and

male fish, and those which are not, is clearly seen by the eye; the former are quite translucent, and have a darker colored spot in the center, which is the germ of the embryo fish. The unimpregnated eggs are opaque, and milky-looking.
Eggs of other fish are to be procured and placed in the lake. Among them, we understand, is those of the togue, or large gray trout of the lakes of Maine, which sometimes attain a weight of 40 lbs. It is thought to be a distinct species.

RIGHTS OF WIDOWS IN MASSACHUSETTS.—"September ye 5, 1749. Then did Nathan Shearmane take the widow Mary tailor, in her shift, without head cloth, and baretoot, and led her across the highway, where the two highways mett, as the law directs in such cases, and was then married according to law by Mr. Philip Taber, minister of Dartmouth. to law, by Mr. Philip Taber, minister of Dartmouth.

MS. Records of Dartmouth, extracted by J. L., 1856.

The above appeared in the January number of the Historical and Geological Register without comment. An elderly friend informed me that within his recollection a similar occurrence took place in Little Compton, R. I. The ceremony was performed from a belief that the husband elect was thereby released from all pecuniary liabilities contracted by the widow previous to her marriage with him. Possibly this custom had its origin in the mother country. Can any antiquarian throw light upon the try. Can any antiquarian throw light upon the subject.—Boston Transcript.

Four Hundred Thousand Pounds of Mineral in one Pile.—A gentleman informs us that at the celebra-ted "Big Lead" of Mann, Hunsacker, & Co., near rairplay, Grant county, Wisconsin, there is upon the ground at present a pile of lead ore estimated to contain four hundred thousand pounds! At the price of mineral a short time since in the mines, \$40 per thousand, this would amount to the snug little sum of sixteen million of dollars! A panacea for the crisis, indeed! But what old miner could over realize is? ever realize it?—there is no sale for the mineral now-a-days! Our informant says they make out to get enough currency each week to pay off their hired help, by selling for \$20 per thousand. Such times cannot last. This "lead" is only six or eight miles from Dunleith; a trip thither will be good for sore eyes.—Dunleith Adv., 18th.

THE ORATORIO To-NIGHT -Music is a language strictly speaking, which is understood by few, but it is one which is felt by all. That "concord of sweet sounds" spoken of by the pcct has its influence, in a greater or less degree, upon each son and daughter of Adam, from him who "whistles while plodding o'er the lea," going to his labor or returning from it, to him who, through the orchestral crash produced by an army of musicians, can discern with a practiced ear each singular beauty and each harmonized movement. In the highest walks of the art lies the domain of Sacred music. It would seem that when art is applied to the bepes and aspirations of man beyond this life, its sure reward is a spark from Heaven, giving to its creations a beauty and a sublimity not of earth. To-night our citizens will have an opportunity to listen to some of the most beautiful conceptions in the whole range of musical composition. Beethoven, Haydn, and Mendelsohn, a trio of undying names, will be made to live in the hearts of the thousand listeners. Messrs. Brainard and Zoller, assisted by Mr. II. J. # lune 2 &b'-1-Dr. King's Dispensary. Dr. King, a practitioner of New York for thirty years, and for the last four in this city, has removed his Dispensary to next door to Walker's Exchange, Third street, Loukville, for the treatment of Brivate Discasee, such as Gonormea, Syphilia, and all diseases of the skin and other derangements growing out of neglect or imperfecteure. It is long experience and success enable him to act with confidence, All those who may confide their cases to him may reet assured of having the disease effectually cured and every vestige of the difficulties perfectly eradicated from their constitutions.

Synatrices of old or recent date effectually cured in a few days by an operation which causes no pain. Where a stricture exists, general derangement of the whole constitution must ensue, a continuance of which will bring on a train of synatons to be dreaded, and will undermine the constitution and cause premature old age.

SEMINAL WEAKNESS.—Particular attention will be given to this disease and all the consequences growing out of it, brought on, in many cases, by the destructive habits of inconsiderite youth and excessive induspence of the passions, which undermine the constitution, readering the subject unit for citler busines or society, and causing premature old age.

matte, and Neuralgic Affections, it has in numerous in stances, proved highly beneficial, and in others effected a decide toure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland, Pr feesor, Boerhave. Because of this gue thauced in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here are there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

A libel suit was on trial in the Cincinnati Snperior Court on Tuesday, in which Mr. Hassaureck, the editor of the German Republican paper, was plaintiff, and Mr. Bemann, the editor of the Volksfreund, defendant. The latter paper published an article which it copied from the Anzeiger of this city, and which charged Hassaureck with dragging his mother by the hair and kicking her. Depositions were read from various persons, and witnesses were introduced who testified that there was a general report that plaintiff had maltreated his mother. Among the depositions was one from Mr. Sterlin. the editor of the Anzeiger, to the effect that he wrote the article published in the Anzeiger, and requested the German papers in Ohio to copy it.

The plaintiff introduced depositions from his mother and stepfather, in which they deny the report in toto. Case pending.

CJ. J. Dennis, a lawyer, of Cincinnati, who figured conspicuously in the recent slave case in that city, has been sentenced by Judge Burgoyne to pay a fine of \$500 for contempt of court. The negroes were brought before Jndge B. by writ of habeas corpus, and on motion of Dennis, who appeared for their owner, the case was continued to give him time to file an answer. Instead of filing an answer, he procurred another writ of habeas corpus by Judge Carter, thereby laying the foundation of an apparent conflict of jurisdiction, knowing at the same time that the jurisdiction of Judge Burgoyne was full and complete.

COATES'S NEW MOTIVE PUMP .- Mr. Coates, of the United States' Lighthouse Department, well known as the inventor of the lantern now so extensively used on both sides of the Atlantic, has invented a new application of motive power to the working of a ship's pump. This consists of a pendulum with a heavy ball attached to the lower extremity, and a universal joint above, so arranged that whichever way it swings it will work the pump to which it is appended. The rolling or heaving of the ship must keep this pendulum in constant motion, and thus it is self-acting, and if It fulfill the expectation of the inventor, will keep the ship clear of water, without any application of manual labor. A model has been exhibited on Change, where it attracted much attention. The only objection made against it by nautical men, was that in a smooth sea slowly and thus he insufficient this may be met by the remark that it is only when a vessel is laboring that she is liable to make much water, and, thus the remedy would increase in efficiency in the precise ratio with the evil to be removed. The U. S. schooner Narragansett, now in commission here, will soon make a trial trip to test the practicability of the invention, and several shipowners have announced their intention to adopt the same experiment.

CAN CORNS BE CURED .- Those who wish to test the truth of this assertion should call on Dr. Ealing, at his consulting rooms, corner of Jefferson and Second, and they will not only be convinced of the fact, but be highly delighted with the easy, painless, and successful operation of extracting the worst cases of corns. Read the certificates of those who have been operated on. They will be found on the second page, under Dr. Ealing's advertise-

LAST WEDNESDAY'S STORM IN THE NORTH .- The Cleveland Plain-lealer, of Monday last, says:

The storm, which commenced on Wednesday last, has prevailed throughout the line of the Lakes, and eastwardly as far as Boston. The Buffalo Republic, of Saturday, says that the gale drove the water with such force against the Buffalo and Niagara Falls Railroad that it carried away 70 or 80 feet of the track. The snow storm prevailed all along the New York Central Railroad, and heavy forces were required to clear the track, and as more snow has since fallen, in quantities upprecedented at this season of the year, great delays must be experienced. son of the year, great delays must be experie by trains. The oldest inhabitants never with by trains. The oldest inhabitants never witnessed such a flood as has submerged the Sait Blocks at Liverpool and Salina, the Onondaga Lake being some eighteen inches higher than before. Thousands of bushels of salt have been destroyed. Steam tugs are towing boats on the Oswego canal, the towpath being in many places completely submerged.

We have also the following particulars of the trip of the Cleveland:

of the Cleveland:

The steamer left Green Bay on Tuesday, at 10 A.
M., with 15 passengers, and a full freight. On her way down she touched at different points and took on in all about 60 passengers. Everything weat on smoothly until about 11 o'clock Wednesday night, when the blow struck her. She was at that time a short distance above Milwaukee. The wind and snow raged with fearful violence, and every wave as it washed into the noble craft seemed bent on destroying it. Her fires were put out, and it then it washed into the noble craft seemed bent on de-stroying it. Her fires were put out, and it then seemed that destruction was inevitable. Captain Flood, undaunted, however, set about to bail her out, and the passengers and crew, with one dastard exception, took hold and worked for four hours and a half. At the expiration of this time the fires were re-kindded and steam once more got up, but they were soon put out again.

were soon put out again. The passengers again went to work with a will and bailed until nine or ten o'clock A. M., when steam was once more got up. They headed for shore and kept on bailing in the midst of this terrible storm. About 3 P. M., they espied, much to their gratification and delight, a chimney, which proved to be in Chicago. to he in Chicago. At 61/2, the steamer reached her

Once or twice during the gale all hopes of ever reaching shore were given up, and a list of the passengers on beard was prepared by two captains to throw overboard. Happily so terrible a calamity

was averted.

In the midst of the unflinching courage displayed on every hand, shines still brighter the courage of a woman who was one of the passengers, the brighter, as it stands in contrast with the sheer cowardice of a craven-souled man who was aboard. That man was a Frenchman and not an Englishman, as we stated vesterable. He alsolutely refeed to work man was a Frenchman and not an Englishman, as we stated yesterday. He absolutely refused to work, when a woman, which should have brought a burning blush of shame upon his cheeks if he was possessed of any manhood, stepped forward and volunteered to take his place. That woman's name was Miss E. Wishard, of Milwaukee. The passengers, however, would not allow her to work. Her noble behavior upon this occasion won for her the admiration and esteem of every one on board, while the conduct of the Frenchman provoked just the opposite, and we should not have blamed the crew had they looked upon him as a second Jonah aboard their noble craft.

The best description of the Goodwood Races was by Lord William Lennox (Duke of Richmond's brother), and which thus concludes:

brother), and which thus concludes:

While upon the subject of betting, we cannot refrain from mentioning the high-miudedness and noble conduct of several American gentlemen, who, feeling that their names were unknown in Eagland, expressed their wish to place the amount they risked in the hands of some English sportsman of character. The above gentleman-like trait, added to the straightforward manner in which the owners of the horses from the United States acted, was duly appreciated by all, and although Mr. R. Ten Brocck did not carry off the gold cnp, he won "golden opinions" from every one who had the good fortune to form his acquaintance. The two transatlantic opinions" from every one who had the good fortune to form his acquaintance. The two transatlantic flyers ran extremely well under all the circumstances of the case; they had to contend with the horrors of a sea voyage; they had to fight against change of climate, food, and water; and one of them had lately suffered greatly from a cough. To add to these disadvantages, the riders, albeit good jockeys, were not as much "at home" on the course as others who had ridden there for years; they did not know the difference of the ground, the nature of the others who had ridden there for years; they did not know the difference of the ground, the nature of the turns, and sundry little items which, in the aggregate, amount to a considerable advantage. All we can say is, in the words of the dramatist, if Mr. R. Ten Broeck could not "command snecess," he did more—he "deserved it." As the cup is not doomed to grace the sideboard of the hospitable competitor at New York, we are happy that it will find its way to Paris.

Fourth Volume of Debates of Congress
THE ABRIDGEMET OF THE DEBATES OF CONGRESS, or the Political History of the United States, from the original Documents. Edited by Col. Thomas H. Benton. In 15 large octavo volumes of about 750 two-column pages.

This work has now reached the fourth volume, and is giving great satisfaction among all classes. It will contain the wi dom of Congress for seventy years, and will be an utwalunble part of the history of the country. It is of national interest, and one of the most valuable compendiums for public and private libraries ever issued. The work realizes a desideratum long felt, and of all others, for the political history of the Government, most wanted. Its wide range of characters, each one speaking for himself and representing his own party, and its far siretch of time, make it of the greatest value to the nation. The indexing is very complete, so that any name or subject desired may be found in either volume at once.
